# What is internet safety day?

Safer Internet Day is a day where we talk about how to stay safe online. Staying Safe online is very important because although it is fun to use, it also has a lot of danger within it.

Being safe is key when using the internet as there is a lot of things that could go wrong. We are here to explain the dangers of the internet!

# What do you use to get online?

Maybe you use a

Tablet?

Or a Phone?

A computer or laptop..

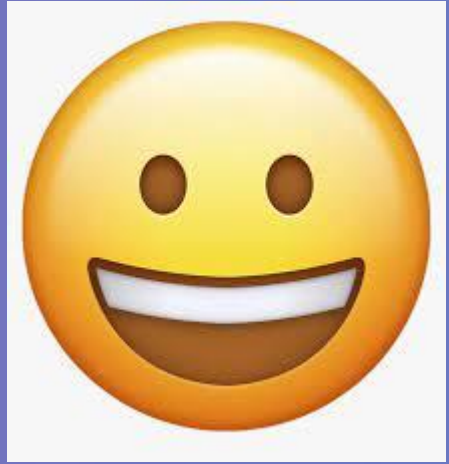

A TV

Or a console

How do you behave online with your friends?

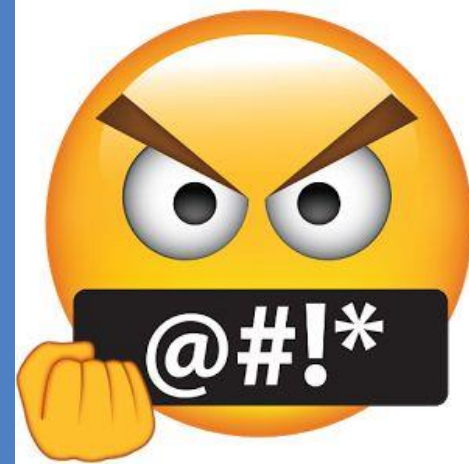

Happy

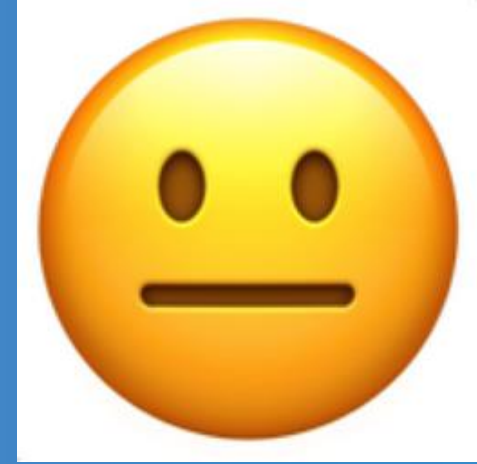

Silly

Angry

Rude

Or Sensible

**Choose one!**

# Why is it important to be kind online?

It is important to be kind because it makes you feel good about yourself. When you do things for other people and help them with anything, it makes you feel warm and that you have done something great.

Even better, you also get kindness in return!

**Are you kind online? Talk to your partner!**

BE  
KIND

A graphic with the words "BE KIND" in a playful, rounded font. "BE" is in red and light blue, and "KIND" is in green, red, and purple.

# Should you behave the same way you do offline to online?

You shouldn't behave differently online than offline because even though you're behind a screen you are still talking to a real person who has feelings like you.

Being online is a fun way to play games and have fun with your friends but being safe is much more important than being silly and messing around, letting personal information out into the world.

# What if...?

Emily and Victoria are playing an online game with other people but when Emily is talking to Victoria and a random girl comes up to Emily and shouts at her saying that she is bad at the game.

## *What should she do?*

- Shout back at her?
- Leave the game?
- Tell an adult?
- Should she call her worse names?

# **THANKS FOR LISTENING**

Hope these tips come in handy! If you follow these, you will stay safe on the Internet!
