

Safer Internet Day 2026

What is it all about?

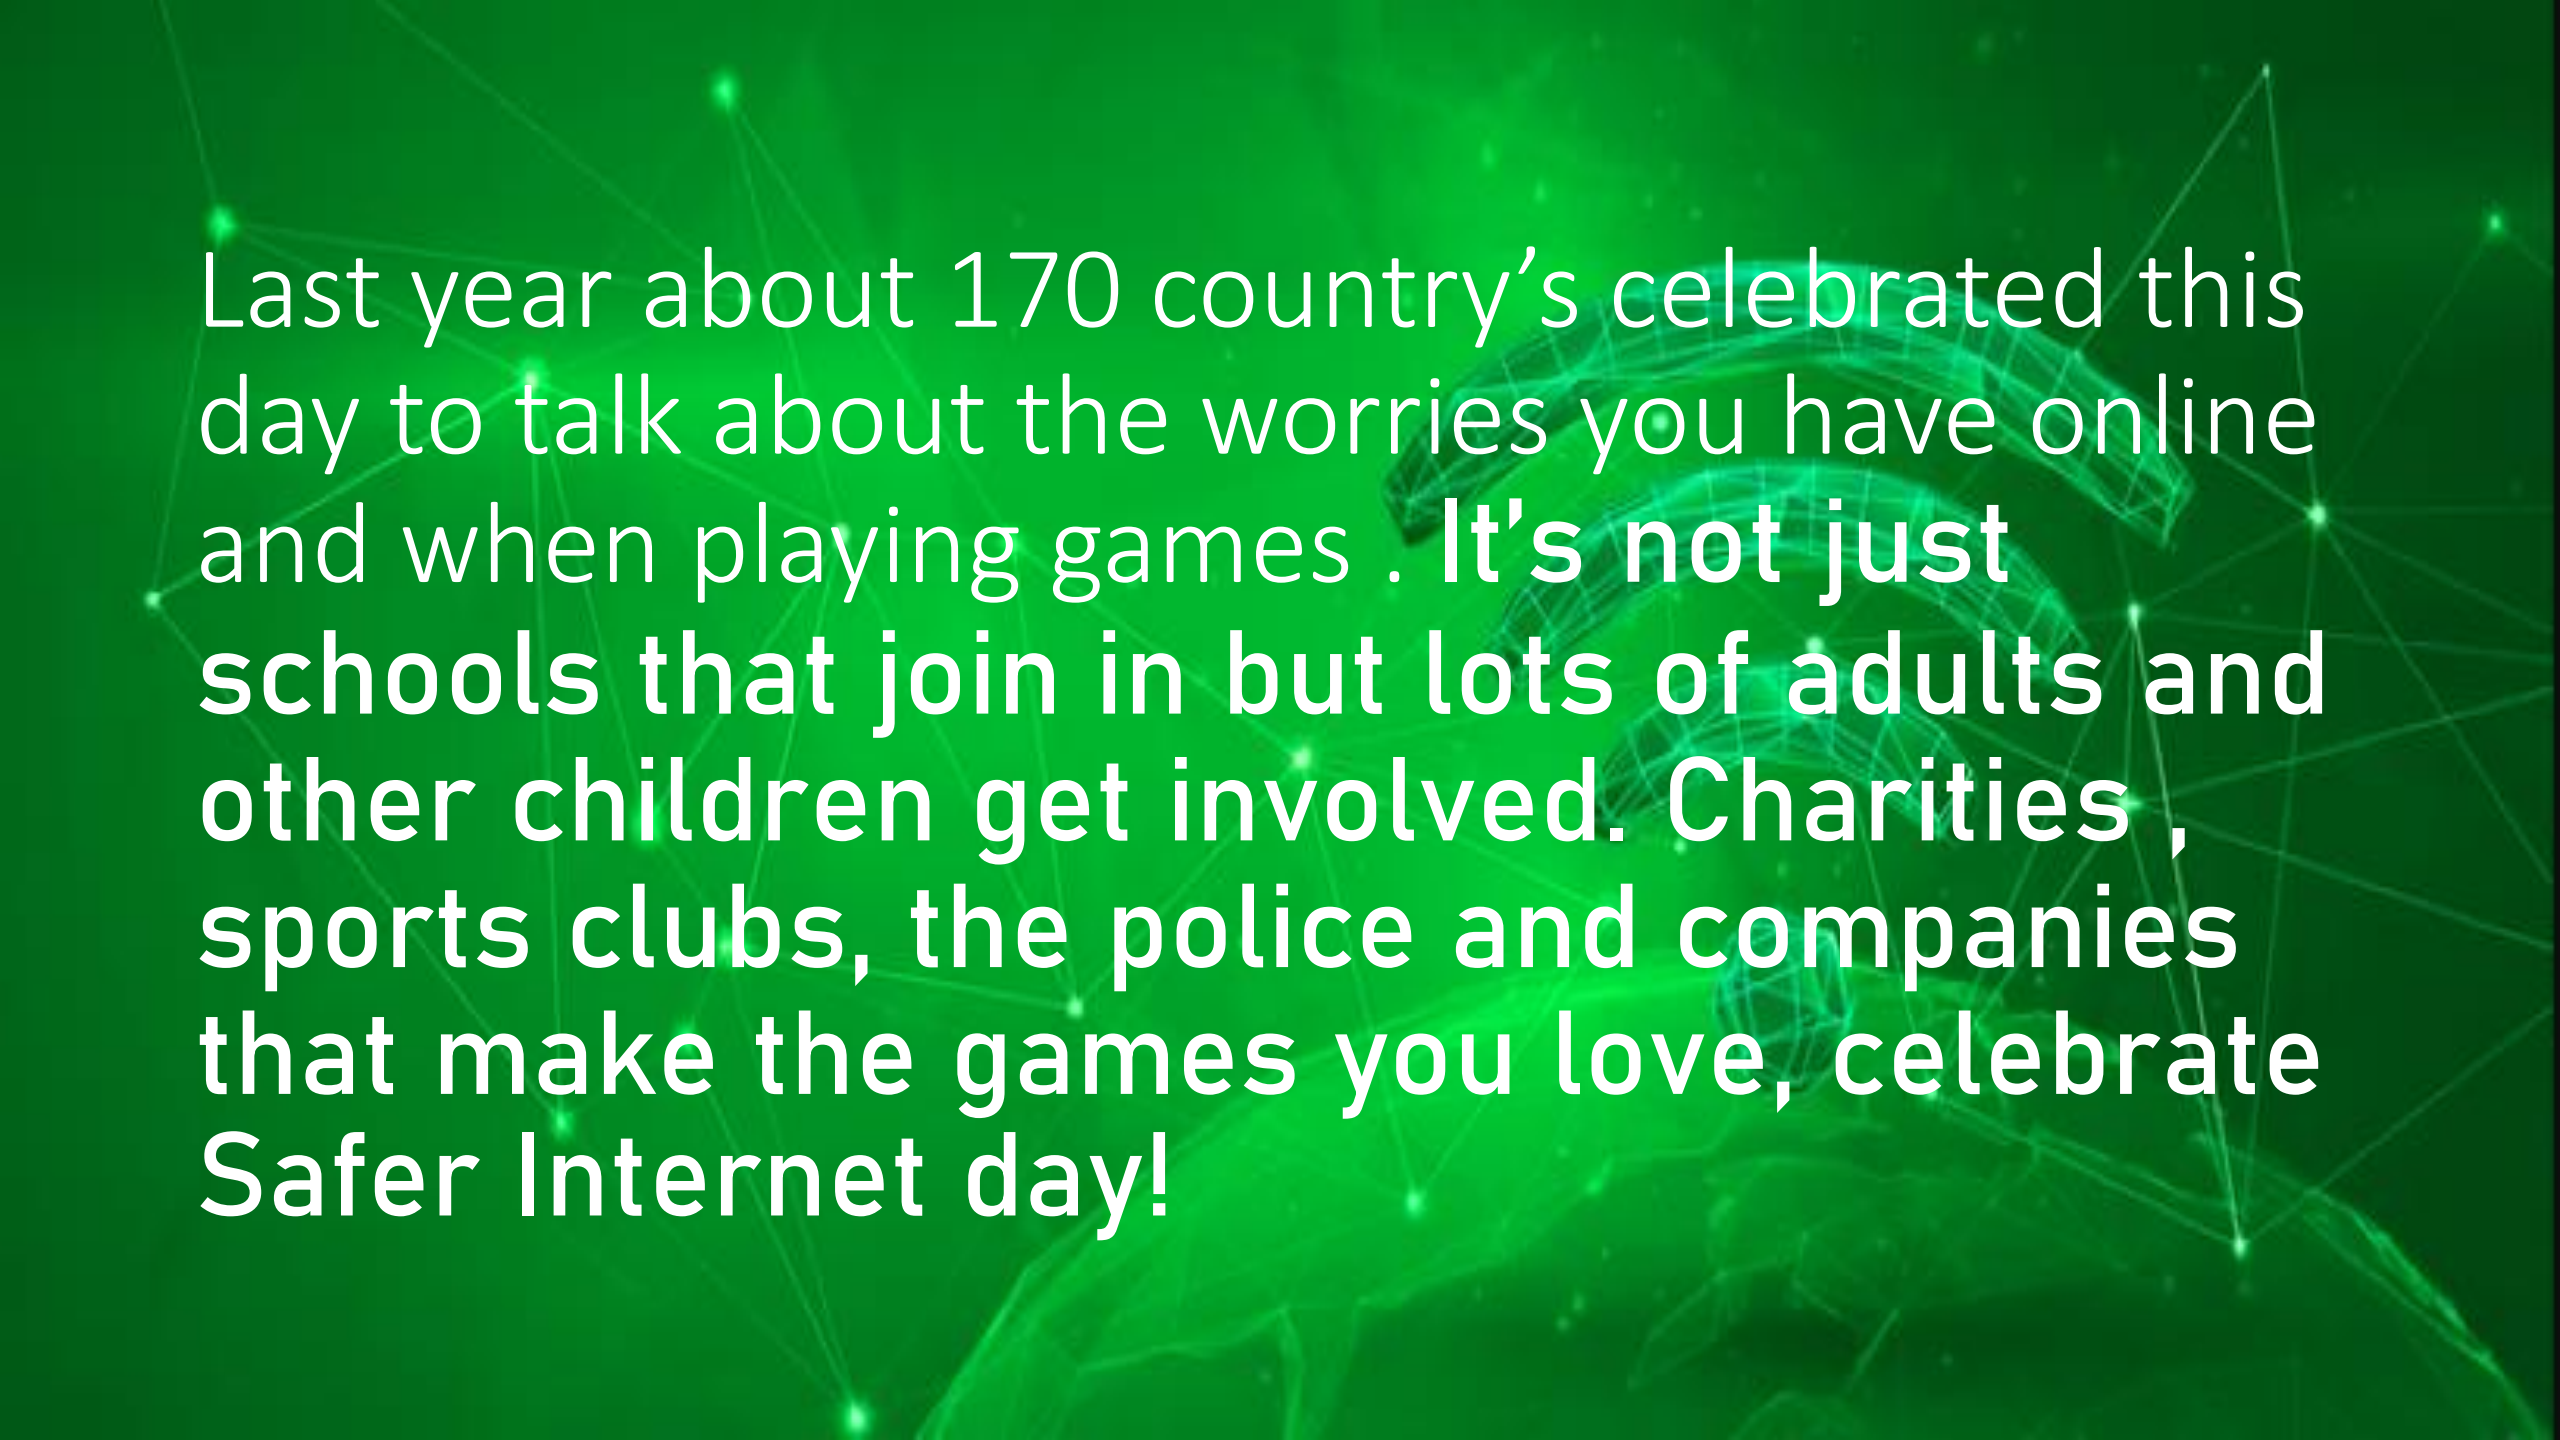

What is safer internet day?

Safer Internet day is a day that happens every year to make sure people are being careful when you are on the internet and on devices like i-pads ,phones ,tv's and laptops.

Do you know any ways to stay safe online?

Last year about 170 country's celebrated this day to talk about the worries you have online and when playing games . **It's not just schools that join in but lots of adults and other children get involved. Charities , sports clubs, the police and companies that make the games you love, celebrate Safer Internet day!**

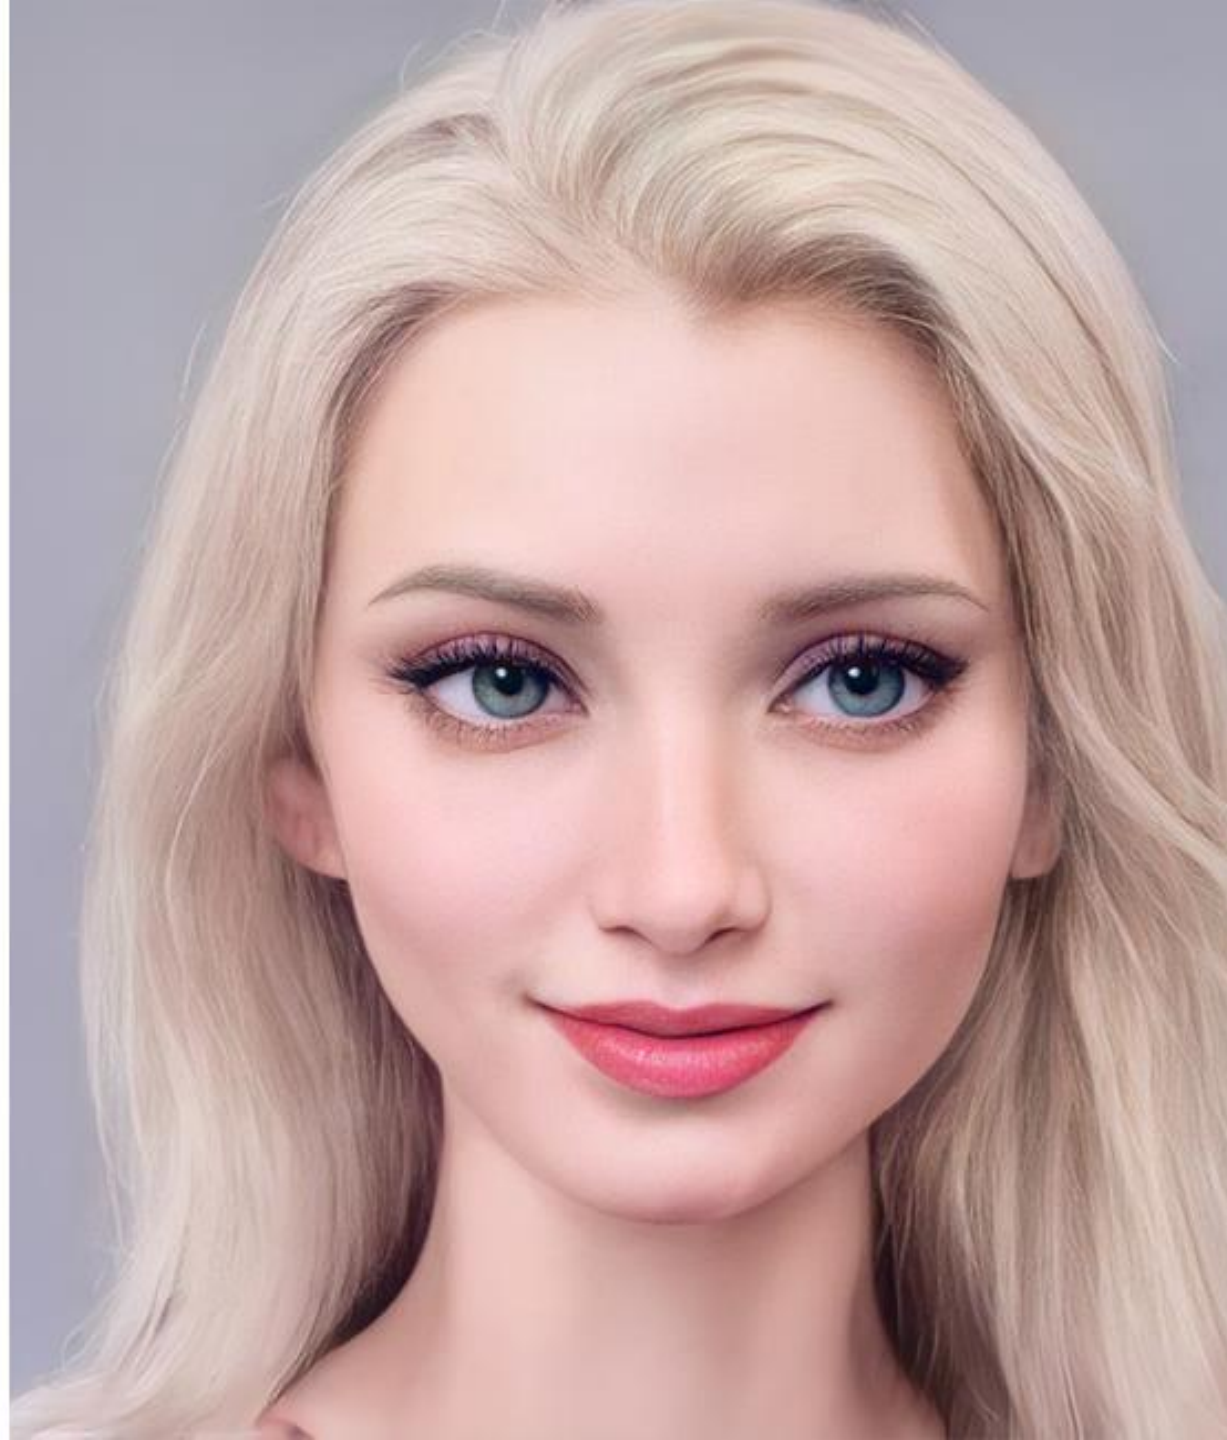

AI (artificial intelligence)

A futuristic, glowing blue face with circuit patterns, set against a background of a digital cityscape at night. The face has a human-like form but is composed of glowing blue lines and patterns, giving it a digital or artificial appearance. The background is a dark blue cityscape with glowing lights and circuit-like structures, creating a high-tech, cybernetic atmosphere.

This year we are thinking about a type of technology, this technology is called AI also known as artificial intelligence. AI is made to do the same things as humans but quicker.

Sometimes AI can make fake pictures of famous people to make it look like they done something they did not do.

Can you see which picture is AI?

How can you make sure to stay safe online?

**Safer
Internet
Day 2026**

If you feel unsafe online remember smart rules:

S safe , keep safe by being careful not to give out information about yourself like name , parents and where you live.

M meeting, if you meet someone from the internet as they can say their name is Bob that's 6 but he can be a man that's 34 years old and is named Tim . Only meet people with parents permission.

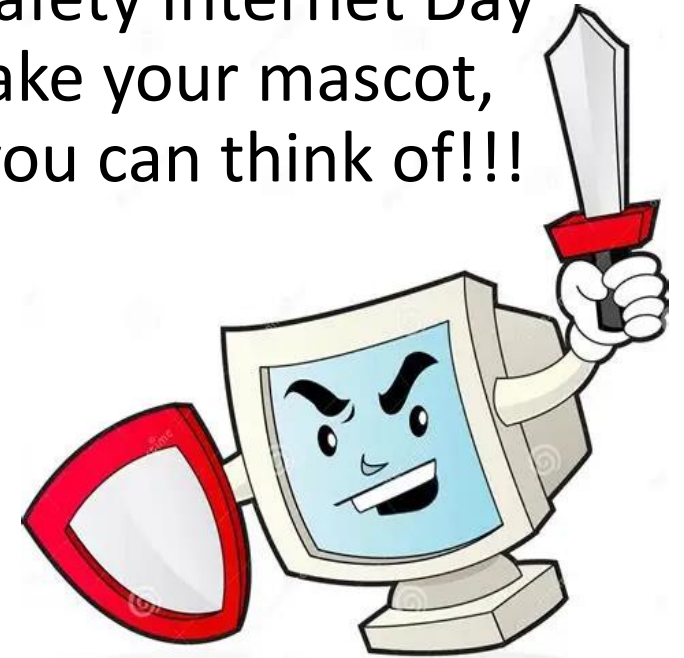

A accepting friends and messages can be dangerous so only friend people that you know in real life.

R reliable information you find on the internet can be fake or may not be true

T tell a trusted grown up if something online makes you worried or sad

Mascot Competition !!!

We are having an internet safety mascot but do not know how to design it ? We need you to create a Parsonage Farm Safety Internet Day mascot . You have until Monday the 2nd March to make your mascot, it can be a superhero, princess, monster or anything you can think of!!!

Online Safety Competition

We are looking for an Online Safety Mascot for our school and you could design it!

Design a mascot that helps remind everyone how to stay safe online. It can be:

- An animal, superhero, robot or creature
- Colourful, friendly and fun
- Something that represents online safety

The winning design will be featured on the school website and become the school's official Online Safety Mascot.

Please hand your designs to Mrs Goodwin or Mrs Benwell by the 2nd March. Please make sure your name and class are written on the back.
